## CAPITALIZING ON OUR DIVERSITY

# 2017 CORE CONFERENCE TRACKS

Five core conference tracks relating to this year's conference theme of "**Capitalizing on our Diversity**" have been developed to help guide and facilitate your conference experience, including:

- **Lessons Learned: A Diverse Past.**  
How has planning changed in the last 100 years? How can we integrate what we've learned to meet the current and future challenges that face our profession and our communities.
- **We're All in This Together: Implementing Diversity.**  
How can planners collaborate with other sectors (health, community based organizations, private organizations, etc.) to create strong, vibrant communities?
- **Tips of the Trade: Diversifying the Tool Kit.**  
What are the new practices, tools, technologies, and funding sources that planners are using or should be using?
- **Engage: Planning for Diverse Places and Perspectives.**  
What best practices are planners using to plan for and engage diverse communities – considering both human diversity (multi-generational, economic, social) and physical diversity (land use, geography, multimodal transportation)? How are rural areas and small towns approaching these questions?
- **Embracing and Envisioning Change: A Diverse Future.**  
How are resiliency, adaptation, and social and economic changes reshaping planning and how are we embracing uncertainty and preparing for these hard-to-predict changes?
